Climate cabinets

Wine coolers:

Natural wine cellars are of course the perfect place for storing wine due to the lack of light, vibration and their specific climate..

Of course you can store your wine in the cupboard under the stairs or in the attic but there are now more sophisticated ways to do so. Our wine coolers offer the perfect alternative to a natural wine cellar.

Our wine coolers ensure that your wines are stored at your chosen temperature and that they can be served immediately at any time

Cigar-humidor:

In many respects cigars are similar to wine. They are natural, organic products and are sensitive to their environment.

They are the mature product of a carefully controlled combination of temperature and humidity.

The best conditions, of course this depends on the user, are a temperature of approximately 20°C with a humidity level of around 70% which means the cigar remains flexible and, to a certain degree, elastic to the touch.

We supply a range of climate cabinets. From wine coolers, the table model (40 bottles) to a wine cooler suitable for the hospitality sector (+200 bottles). Also humidors, chocolate coolers, and many more cabinets. You can also install a climate cabinet in your house, apartment, at your company and at an exhibition. The climate cabinets can also be built-in!

All rights, adjustments and print-mistakes reserved.

CoolVaria

Wine cooler

PT-S 40 WK

Model: PT-S 40WK

- Number of bottles (750ml): 40
- Upper zone: 12-22°C
Lower zone: 5-12°C
- Relative humidity: >60%
- Outside measurements:
595 x 590 x 840mm
- Weight: 50 Kg
- Standard shelves: 2
- Colour exterior: black

CoolVaria

Wine cooler

PT-S 80 WK

Model: PT-S 80 WK

- Number of bottles (750ml): 80
- Upper zone: 12-22°C
Lower zone: 5-12°C
- Relative humidity: >60%
- Outside measurements:
595 x 590 x 1240mm
- Weight: 61 Kg
- Standard shelves: 3
- Colour exterior: black

CoolVaria

Wine cooler

PT-S 120 WK

Model: PT-S 120 WK

- Number of bottles (750ml): 120
- Upper zone: 12-22°C
Lower zone: 5-12°C
- Relative humidity: >60%
- Outside measurements: 595 x 590 x 1640mm
- Weight: 75 Kg
- Standard shelves: 4
- Colour exterior: black

CoolVaria

Wine cooler

Model: PT-S 200 WK

- Number of bottles (750ml): 200
- Upper zone: 12-22°C
Lower zone: 5-12°C
- Relative humidity: >60%
- Outside measurements: 595 x 700 x 1800mm
- Weight: 89 Kg
- Standard shelves: 4

PT-S 200 WK

Coolvaria

Beer-cooler

Model: PT-S 200 BC

- Capacity: 105 liters
- Temperature zone: 5-22°C
- Relative humidity: >60%
- Outside measurements: 595 x 590 x 840mm
- Weight: 50 Kg
- Standard shelves: 2
- Colour exterior: black

Coolvaria

Cigar humidor

PT-S 600 SK

Model: PT-S 600 SK

- Number of cigars: 600
- Temp.zone: 16-22°C
- Relative humidity: >60% (Digital indication)
- Outside measurements: 595 x 590 x 840mm
- Weight: 50 Kg
- Number of shelves: 3
- Colour exterior: "Brown wood"

Coolvaria

Details

White, sparkling and red wine:

All our wine coolers are fitted with an insulated glass door and two temperature zones (12~22°C and 5~12°C), which means that they can be used to store white, sparkling and red wine. The anti-vibration system means that vibrations are consigned to the past and white wine can be stored in optimal conditions.

Humidity and temperature:

The relative humidity is monitored constantly and therefore will always be above 60%. The temperature of the stored wine will barely change (+/- 1,0°C), which means that the temperature remains constant just like in a 'real' wine cellar.

Our wine coolers ensure that your wines are stored at your chosen temperature and that they can be served immediately at any time.

The humidor features a digital temperature and humidity meter so that you can monitor both of these important aspects

Characteristics

- Extremely simple to install (all coolers are fitted with 4 adjustable legs)
- The exterior has a trendy black finish
- Subtle blue interior lighting (can be switched manually on/off)
- Blue illuminated display for extremely accurate settings (can be changed in a few steps)
- The glass door is fitted with a UV filter
 - o The doorframe features a solid modern handle (20 mm) sprayed the same colour as the cooler
- The cooler's interior is manufactured entirely from aluminium (black). Aluminium conducts heat and cold much more efficiently than plastic!
- Fitted with attractive wooden shelves
 - o You can change the position of the shelves according to your requirements
 - o Sliding shelves with ball-bearing slides
 - o Storage shelves can be assembled horizontally as well as at an angle of 45°
- All models are fitted with a lock (and key) which prevents anyone (including children) from opening the door
- Low noise level
- Anti-vibration system
- Fitted with an automatic defrosting system
- Can be installed in cold areas (0-38°C) and is not dependent on the ambient temperature!
- All models are fitted with a carbon filter
- No maintenance needed
